

April 9, 2010

Good Day MCPR Members,

Container Services Network, LLC (CSN) would like to thank you for your participation in our ACRC sponsored used crop protection recycling efforts in your State the last two years. CSN has been working diligently with all “stakeholders” to come up with a compliant and economically sustainable Mini-Bulk/IBC recycling program. We are projecting that some type of National Program will be in place by 2012. We will continue to recycle used Mini-Bulk/IBCs at no charge as long as we are recycling ACRC material from the collection site and that the site follows our recycling protocols. The information regarding our ACRC recycling program and Mini-Bulk/IBC recycling program are posted on the MCPR website. We also can recycle used containers that do not meet ANSI/ASABE S596 (not clean/triple rinsed). If you would like to participate in any of these programs, please do not hesitate to contact us. We look forward to hearing from you and having another successful year with your continued environmental stewardship.

Sincerely,

Gary Glickman  
Executive Vice President  
Container Services Network LLC
